Questions?

```
# File: ./tests/testthat/test-questions.R
library(shinytest2)

test_that("Questions are answered", {
  app <- AppDriver$new(name = "questions")
  app$set_inputs(ready = TRUE)
  app$click("ask")
  if (interactive()) app$view()
  expect_true(
    app$get_value(export = "has_answer")
  )
})
```
