

• Unit Testing for R

• Executes formal unit tests

- Goals
 - Fewer bugs
 - Robust code
 - Better code structure
 - Call to action

test
that

www.rstudio.com

and Catalytic action

• Fewer bugs

• Better code structure

Goals

Robust code

test_that ("example test work", {

expect_eqval(2*2,4)

#File: teststhat/testt-example.R

`expect_equal(2 * NA, NA_integer_)`

ex_file <= make_file()

`expect_snapshot_file(ex_file)`
